

# Outpatient Neurology Positions

**Practice Neurology. Your Way.**

## Who We Are

TeleSpecialists is a neurologist-owned digital healthcare practice delivering outpatient neurology services to patients nationwide. Since 2014, our board-certified physicians have provided remote neurology care that closes access gaps in communities that cannot support a full-time specialist. Founded, owned, and led by neurologists who understood what was missing, and built a model designed to address it.

## Practice Highlights

### Scale of TeleSpecialists Practice

- **400+** hospital partners across inpatient and outpatient neurology
- **83% reduction in patient wait times** at partner clinics
- **Largest dedicated neurology employer** nationwide
- **1.5 million+** patients served since 2014
