

# TELE-EEG

To complement our TeleStroke and TeleNeuroHospitalist Rounding services, TeleSpecialists offers EEG interpretation services. By partnering with TeleSpecialists for your electroencephalogram reads, you will have access to experienced neurologists to analyze and interpret EEGs, helping your staff to manage internal capacity and achieve consistent turnaround times.

## TeleEEG Program Benefits

- All services are available 24/7/365 by a panel of board-certified neurologists
- STAT, routine and long-term interpretation options available
- Documentation directly into your hospital's EMR
- Interpretations are done in a timely manner and in accordance with hospital bylaws
- Phone and e-Alert options direct to TeleSpecialists Rapid Response Call Center ensure prompt response

## EEG Interpretation Services

- Routine EEG (Non-STAT)  
Once a hospital-based EEG Technician notifies our Rapid Response Center that an EEG is ready, our TeleNeurologist interprets the study, then accesses the hospital's EMR to document the report directly into the patient's chart.
- STAT EEG  
When a STAT EEG is called into our Rapid Response Center, a TeleNeurologist will be assigned to exam the patient, then interpret the electroencephalogram. A report is then immediately documented in the EMR.
- Long-Term EEG\*  
TeleSpecialists offers the interpretation of long-term or prolonged EEG studies. Typically, these studies are 12 to 24-hours in duration. Our TeleNeurologist reviews each study at least once daily, and then again at its completion. The reports are documented daily in your EMR, and again at the time of completion.

## Quality Review

TeleSpecialists is committed to the delivery of high-quality patient care. Our quality management department is spearheaded by a nursing team with over 50 years of hospital-based quality oversight. Every partner facility is assigned a dedicated licensed RN Quality Program Specialist (QPS). These RNs oversee all quality elements associated with your program.

TeleSpecialists is accredited by The Joint Commission and maintains certification through Bureau Veritas for ISO 9001:2015.

*\*TeleSpecialists does not provide interpretation for continuous electroencephalogram (monitored) or intraoperative electroencephalogram monitoring.*
